Brief information

Prepare your application

Check the following before you apply:

- Make sure that all courses you wish to include in the degree have a final grade (NB that parts of a course – in Swedish “delkurs” or “delmoment” - may not be included in a degree). An oral statement by the examiner is not enough, your results must be reported into the student database LADOK before you apply.
- Check that all grades and the title of your degree project/dissertation is correct. If anything is wrong, contact your department and make sure that they correct it before you apply.
- Make sure that you have paid your student union fee for all semesters you have studied in Kristianstad. If you have any questions about this, please contact the Student Union.
- Make sure that all official transcripts/documents you wish to invoke are enclosed your application.

NB. Issued degree certificates will not be revised unless the University has made a mistake – it is therefore essential that you verify all data in the student database LADOK before you apply.

More!

- If you have studied at more than one Swedish university you should apply for a degree certificate at the university where you last completed a course to be included in the degree certificate in question (unless that University has the right to issue that particular degree certificate).
- All courses that are to be included in the degree must be completed and must not have overlapping content with other courses included in the degree.
- The same credit points can be used in more than one degree certificate.
- If you wish to include courses from other universities you may be asked to enclose the course syllabus and the list of literature.
- A rejected application for a degree certificate can be appealed to the Appeal Board for Higher Education. Instructions about the appeal will be enclosed if your application is rejected.
