My programme/course

Admitted (semester and year)

<input type="text"/>	<input type="text"/>
----------------------	----------------------

Application

Please state the course name and course code of the unfinished course here

Please state the course name, course code, and start week of the course you are ineligible for

Reasons for application (certification attached as annex)

For exemptions to be granted, there must be mitigating circumstances that can be considered to compensate for lacking qualifications to such an extent that you have the conditions to complete the education programme without fulfilling the course's formal entry requirements.

Other circumstances that are not directly related to your ability to complete the programme are **not taken into account when reviewing your case**, such as your need to be registered to receive student grants and loans, a desire to proceed with your studies, medical reasons, or the fact that there may be gaps in your studies. Expected future study results cannot provide the basis for the exemption from an entry requirement. The focus is on how you are able to compensate for the discrepancy and not on the reason why you do not meet the entry requirements.

Please specify below, based on the entry requirements, how you believe you are able to compensate for the lack of qualifications and thereby complete the course in question without fulfilling the entry requirements.

If necessary, supplement is attached
